1. (currently amended) A method for the resale of vehicles
comprising the steps of:
 downloading auction data for a plurality of auctions from a
third party database;
 storing said downloaded auction data in a system server,
said auction data corresponding to a schedule of auctions for resale of
vehicles;
 providing access to said system server by way of a web site;
 allowing a user to access said system server to consign a
vehicle to one of said plurality of auctions; [and]
 said system server determining an adjusted floor price for
said vehicle based upon said vehicle information; [and]
 transmitting said adjusted floor price to said auction; and
 notifying said one auction of said vehicle consigned and said
adjusted price to said one auction at said web site.

2. (cancelled)

3. (currently amended) The method of claim [2] 1, wherein
said vehicle information includes a vehicle identifier corresponding to the
vehicle to be consigned and further comprising the steps of:

 said server utilizing said vehicle identifier to gather vehicle
information regarding said vehicle at time of manufacture to determine a
minimum value;

 said server prompting said user to add status information
corresponding to changes in status of said vehicle since manufacture of
said vehicle;
